Note-Taking Refresher Workshop

Attend this workshop to learn how to take notes without the anxiety of frantically writing down everything in your notebook as the instructor is lecturing! Many college students have never been taught how to transcribe notes effectively. Your notes are your guide to your class, as well as, what you will use to study for your tests and quizzes. Fortunately, there are note-taking techniques available that can improve your ability to find and organize key concepts efficiently and effectively!

Dates/Times:	Wednesday, February 1 at 11:00
	Tuesday, February 2 at 1:00
OR	Call 614-6290 to schedule an individual appointment!
Location:	A-131, Student Development
Facilitator:	Caitlin M. Wetherwax

How to Succeed in Science Class

The Sciences are a different animal when it comes to studying. For many students, the rigors of lecture and lab can leave them feeling overwhelmed. This workshop will open your world to other types of study-strategies including fun educational videos, Web2.0 learning tools and even playing games to help you succeed in your science class!

Dates/Times:	Wednesday, February 8 at 12:00

ADVISEMENT & REGISTRATION WORKSHOPS

Non-Matriculated Student Concerns

Students will meet with an advisor on campus who is responsible to serve as a resource person for non-matriculated students. This workshop will also discuss the benefits and procedures of becoming a matriculated student for those who are interested. Students unable to attend the workshop should contact Student Development at 614-6230 for any assistance needed.

Dates/Times:	Wednesday, February 1 at 2:00
	Thursday, February 2 at 4:00
Location:	A-131, Student Development
Facilitator:	Deborah J. Robinson, Ph.D.

Preparing for My Advisement Appointment

IT'S NOT TOO EARLY!! This workshop will prepare a student for a successful advisement meeting with their advisor. Topics will include:

- Clarification of curriculum requirements and where to find them
- What questions you should ask your advisor
- Why you meet with your advisor
- And additional student concerns

Dates/Times:	Wednesday, February 15 at 1:00
	Thursday, February 16 at 2:00
Location:	A-131, Student Development
Facilitator:	Tony Ventresca

Registration Can Be Done Effectively and Wisely!

Learn tips and tricks to get the most out of your advisement meeting and finding the best schedule for you for next semester!

Topics include: Your major and how it connects to your career goals, answers to questions you don't know you should be asking your advisor, selecting a good "mix" of classes, selecting instructors, using Degree Works, and balancing school with other responsibilities.

Dates/Times:	Wednesday, March 8 at 1:00
	Wednesday, April 5 at 1:00
Location:	The Learning Commons
Facilitator:	Randy Rumley

Course Scheduler

Come and see the new software that builds class schedule options that work for you. Tell us what days/times you cannot take classes. Tell us what classes you need to take. Then view a variety of class schedules that work for you! It's the latest and greatest software that considers your busy schedules and streamlines the time it takes to build a schedule.

Dates/Times:	Tuesday, March 7 at 1:00
Location:	A-201, Registration & Records Office
Facilitator:	Christina Fuller

Degree Evaluations Using Degree Works

This hands on workshop will show you how to verify if the coursework you are taking or have taken is putting you on track for graduation. We will show you how to properly run a Degree Evaluation using Degree Works. This workshop will provide you with step-by-step instructions for running Degree Evaluations and "What-If" Analyses and then interpreting the results.

Both students and advisors are encouraged to attend. Attendees will have the opportunity to ask questions and run their own Degree Evaluations during the appointment.

Building Your Resume While Building Your Network

Networking is an important part of the professional world. Statistics have shown that up to 80% of available employment opportunities are filled by word of mouth and never get publicly posted. This seminar explores a way to build and maintain your professional network while adding valuable work experience to your resume.

Dates/Times:	Thursday, January 26 at 12:30
Location:	A-131, Student Development
Facilitator:	Alissa Shugats-Cummings

Career Planning

It is very common for students to be undecided about their career goals. This seminar educates students on the career planning process and is intended to increase students' awareness of various career choices. While engaged in the career planning process, students should have as much information as possible about career options. A variety of testing instruments to help students with career decision making will also be explored. Additional print and online resources will also be explained.

Dates/Times:	Wednesday, February 22 at 10:00
Location:	A-131, Student Development
Facilitator:	Alissa Shugats-Cummings

Effective Interview Skills

An interview is your opportunity to discuss, in person, your qualifications for a position. Because you usually only get one chance to make a good impression, it is important to know how to prepare for this important meeting. What to do - and what not to do - in an interview will be discussed?

In addition, a mock interview can be arranged with a counselor.

Dates/Times:	Tuesday, February 7 at 12:30
	Wednesday, March 8 at 11:00
	Thursday, April 13 at 12:30
Location:	A-131, Student Development
Facilitator:	Jared Schickling

Effective Job Search

What is the “Hidden Job Market” and how can I access it? Researching, networking, and making contacts are all steps in conducting a successful job search. The key elements in searching for employment will be examined.

Dates/Times:	Thursday, March 30 at 12:30
	Wednesday, April 19 at 12:00
Location:	A-131, Student Development
Facilitator:	Alissa Shugats-Cummings

Effective Resume Writing

What makes a resume stand out and catch the employer’s attention? The fundamentals of creating a powerful and dynamic resume will be explored. Students will learn to identify transferable skills and career objectives that are the foundation of a strong resume. Students will begin the process of creating an effective resume and leave the workshop with a completed employment tool. Resume review will be conducted on an individual basis.

Dates/Times:	Tuesday, January 24 at 12:30
	Wednesday, February 15 at 11:00
	Tuesday, April 4 at 12:30
Location:	A-131, Student Development
Facilitator:	Alissa Shugats-Cummings

Cover Letter Writing

The importance of the cover letter, when it is appropriate, and how it’s to be written will be discussed. Cover letter review will be conducted on an individual basis.

Dates/Times:	Wednesday, April 5 at 12:00
	Tuesday, February 28 at 12:30
Location:	A-131, Student Development
Facilitator:	Alissa Shugats-Cummings

How to Prepare for the Part Time Job Fair

Come hear tips that should be used when attending a Part Time Job Fair. Resume preparation, appropriate attire, and other strategies will be discussed.

Dates/Times:	Thursday, March 9 at 12:30
Location:	A-131, Student Development
Facilitator:	Jared Schickling

Spring Job Fair

Career Services will host a Job Fair for the Spring 2017 semester. A variety of local employers will be at the event and will have valuable information on a number of employment opportunities.

Students who attend should dress appropriately, bring a resume, and be prepared to speak with area professionals about available jobs.

In addition, students are encouraged to attend the “How to Prepare for the Part Time Job Fair” and “Effective Resume Writing and Cover Letters” workshops, also in this Unschedule. Call 716-614-6290 or stop by A-131 for more information.

Dates/Times:	Thursday, March 23 from 11:00-1:30
Location:	Main Gym, H-Building
Facilitator:	Jared Shickling

LEADERSHIP WORKSHOPS

Heart of a Leader Training

The award-winning HEART of a Leader training has for years been described as indescribable, and most recently it's been identified as **“Unexplainably Extraordinary”** by one of our campus partners. Words cannot put into perspective the depth of this two-day experience.

Participants will be challenged to put forward their very best in a two-day leadership experience. Standards, commitment, confidence, self-determination, personal awareness, group dynamics, relationship development, communication, humility and feedback are only a few of the topics explored in this progressive and innovative leadership training.

Dates/Times:	February 18th- 19th
Location:	G-Building/Student Life Center
Facilitator:	Student Life Staff

SIMPLE Leadership Development Program

Leadership at NCCC is SIMPLE; SIMPLE means: Students Initiating Meaningful and Positive Leadership Experiences. Every student has the capacity to be a leader and SIMPLE will merely give you the tools and guide you in the right direction. Students will gain experience through community service, research, analysis, and action across curricular and co-curricular activities in order to gain a deeper understanding of applied leadership concepts. The program is designed to help students develop the necessary skills to become the best leader possible.

This program is a three level program. Once each level is completed, you will receive a certificate of completion for that level. Once a student completes the entire program, the student will receive an award of completion and be recognized at the Student Awards Banquet.

*To sign up, please come by Student Life in G-117D for a registration form.

The “Show up” Experience

We have more to give to our goals and ourselves. This program is a full recharge of leadership development for any group of students. This 2-day retreat is a fully engaging program that challenges groups to expand their comfort zones through personal awareness and responsibility. During this training you will discover:

- What a true commitment to team looks like
- Full responsibility for your life
- An ability to advocate for yourself
- How to minimize doubt, hesitation, and insecurity
- Accept and give feedback
- And MUCH more!

Dates/Times:	April 7th -8th
Location:	TBD
Facilitator:	Student Life Staff

STUDENT SUCCESS MODULES

Student Success Module Series is open to ALL students through the Spring semester. Help improve yourself, your learning, your mindset.

Dates/Times:	Mondays @ 2:00 PM in E-225 or Blackboard (*access instructions below)
Facilitator:	Dr. Kathy Gerbasi

01/23 Module 1: Dweck's Growth vs. Fixed Mindsets: Why a Growth Mindset Is Essential for Success

(related concept: incremental vs. entity learning)

Mindsets are beliefs and attitudes that people hold about the nature of ability, intelligence, and performance. The type of mindset a person has is strongly associated with her or his academic outcomes. Research shows that when people with fixed mindsets change their mindsets to growth mindsets, then those people become significantly more successful learners.

01/30 Module 2: Unskilled and Unaware: The Dunning-Kruger Effect

(related concept: overconfidence bias and self-serving bias)

The Dunning-Kruger Effect refers to the tendency of people to believe that we know more than we do AND we are not aware of the extent of our ignorance on topics about which we have little knowledge. You can begin to protect yourself from this problem first by being aware that it exists AND second by learning good study habits.

02/06 Module 3: Memory, Part I: Essential information about memory and the ONE STRATEGY to avoid for successful memory

This module outlines the basics of how memory works and provides information about the most ineffective memory strategy that students ought to avoid when studying--simple repetition or cramming.

02/13 Module 4: Memory, Part II: Retrieval

Module 4 focuses on how to get information out of your long-term memory by explaining that the ability to use information that you want to have available in your memory requires effort and practice. You have to practice retrieval in order to be successful at retrieval.

02/27 Module 5: Concept Maps and Understanding

(related concept: chunks and chunking)

A concept map is an arrangement of interrelated concepts and pieces of information that can be useful to help you organize and learn new material. This module explains concept maps and discusses how they can aid in understanding and learning.

03/06 Module 6: Test Yourself (Learning Strategies that Work)

(related concept: desirable difficulties)

This module explains that learners are very poor at identifying which study techniques work and which ones don't. There is no meaningful learning without serious effort that involves testing yourself in a variety of ways. Multiple effective study strategies are described here.

03/20 Module 7: Locus of Control and Learned Helplessness

Locus of control theory says we have experiences that result in various outcomes, good or bad, AND we interpret the cause of those outcomes as being either due to our own actions (internal locus of control) or due to forces in the environment outside of our control (external locus of control). Students who have an internal locus of control tend to be much more successful in school. This module provides suggestions on how to develop an internal locus of control as well as explains related concepts.

03/27 Module 8: Self-fulfilling Prophecy and Behavioral Confirmation

People will behave in ways to make their expectations come true; this phenomenon is known as a self-fulfilling prophecy. Module 8 focuses on studies that show us the very powerful effect that our expectations have on our behavior and our interpretation of what we observe as well as provides tips on how to change your behavior and your expectations.

04/03 Module 9: Self-Efficacy

(related concept: delay of gratification and self-regulation)

Through experience and cognition, people develop expectations about their own abilities to get things done. Self-efficacy has a powerful influence on how we behave and how successful we become. It is possible to develop a stronger sense of self-efficacy, and this module provides suggestions on how to do so.

03/27 Module 8: Self-fulfilling Prophecy and Behavioral Confirmation

Stereotype threat refers to the phenomenon that the activation of certain stereotypes can negatively impact performance (particularly in academic contexts). Module 10 describes stereotype threat in greater detail and discusses how students and faculty can become more aware of stereotype threat and ways to reduce it.

Student Online Access: For students who prefer to access the module online rather than on the presentation dates:

- Log into Blackboard with your T-Wolves credentials
- Under “My Organizations,” Choose “NCCC Blackboard Student Group”
- In the left-hand menu, click on “Smart Study Strategies” to access the modules
