

Helping Students **CONNECT** to **SUCCESS**

What is Starfish?

Starfish is an early alert system being piloted starting this summer with NFCI Majors, Nursing Majors, and Online Only Students.

Success Network

Your personalized network lists people and resources available to you; connecting you to your advisors, instructors and student services.

KUDOS & FLAGS

Raised by a member of your success network. They let you know how you're doing and help you stay on track to achieve success. You can "Raise Your Hand" in Starfish and your advisor or instructor will receive a notice that you need help.
